Soldiers and Civilization: How the Profession of Arms Thought and Fought the Modern World into Existence

Wednesday, October 24, 5:30 PM

Soldiers and Civilization covers the history of the military profession in the Western World from the ancient Greeks to the present day. Drawing from military history, sociology, and other disciplines, it goes beyond traditional insights to locate the military profession in the context of both literary and cultural history. Reed Bonadonna maintains that soldiers have made an unacknowledged contribution to the theory and practice of civilization, and that they will again be called upon to do so in important ways. The comprehensive nature of the book and the extent to which Bonadonna draws on the disciplines of the humanities to make his points set this volume apart from others on the subject.
